Press Release

LETO: The 1st Private Hospital to receive the COVID Check certification scheme by TÜV AUSTRIA

LETO Hospital, a member of the **Hellenic Healthcare Group (HHG)**, the largest healthcare group in Greece, **has become the 1st private hospital to receive the COVID Check** certification scheme by **TÜV AUSTRIA Hellas**, following the **assessment of all the procedures** applied to prevent the spread of the coronavirus.

LETO Hospital was **at the front line of the fight** against the coronavirus, being **fully supported by the rest of the HHG hospitals**. **Making the health and safety** of all patients/carers and associate physicians/staff a priority, a **detailed review and assessment of all the measures applied** was performed, fully adapted to the current epidemiological data for **limiting the risk** or minimizing the chance of the **virus spreading within the facilities**.

Having a check scheme in place, which focuses on Health, Safety and Business Continuity, confirms the **responsible stance, social awareness and business ethics that govern LETO Hospital's operations**. It also contributes to reinforcing the credibility of the Hospital, demonstrating its commitment to provide services within a **fully protected environment**.

Commenting on the assessment, the **CEO of LETO, Mr. Leonidas Papadopoulos**, stated, *"We are delighted that LETO has become the 1st Private Hospital to receive the COVID Check certification, under the auspices of the Athens Medical Association, demonstrating our efforts to actively return to normalcy. The COVID Check certification scheme confirms that in the 51 years LETO has been operating, the seamless provision of services under conditions of absolute safety has been a priority, especially in these times, when we are at the front line of the fight to protect public health against SARS -CoV -2.*
