Press Release
LETO: Certified to ISO 9001:2015 and EN 15224:2016 for all its healthcare services

Following a thorough assessment, **LETO** was certified to the **ISO 9001:2015 Quality management systems** and **EN 15224:2016 Quality management systems for healthcare** standards by accreditation body TUV Austria Hellas **for all the healthcare services provided by the hospital.**

This certification confirms the hospital's compliance with the requirements of the legislation in force, its effective management of patient safety risks, the quality control processes in place to prevent errors and adverse events, its clinical efficiency assessment, the adequacy of its staff and its ongoing improvement in terms of clinical performance.

Commenting on this new certification, **LETO Hospital CEO Mr. Leonidas Papadopoulos** underlined, "*The certification to ISO 9001:2015 and EN 15224:2017 demonstrates that in the 52 years it has been operating, LETO continues to closely follow the mentality of the Hellenic Healthcare Group to respect patients, be consistent and continuously improve its services, in line with international standards. The daily commitment of all our staff is to provide quality healthcare services for the whole family, making LETO a center of excellence in the provision of healthcare services in Greece.*"
